Le Directeur,

L'Illustré,

30 Rue de la République,

Lyon, France.

Dear Sir:

I have received your letter together with two copies of your paper called "Lllustre ". . The University of Toronto is the University of the Province of Ontario and it would not be proper for me as President of the University of Toronto to approach the Dominion Government in support of a subvention for your journal. I should advise you to communicate with some of the members of Parliament from the Province of Quebec, who might be willing to take the matter up with the Minister in charge.

Yours sincerely,

President.
